Thank you Jim!

There are no materials for the roundtable at this time. I will be preparing bios for those that are joining the call and will have that available before Thursday. Also, I'm finalizing the agenda for all participants first thing in the morning and including it in a LN meeting invite.

Just a couple clarifying points:

1. Who is the deputy office director that will be joining DAA Janet McCabe for the roundtable?
2. As noted in my memo I sent you on the 23rd, the time commitment for the roundtable is 11 - noon.

Background for the event:

In honor of Women's History Month, we have been asking several key women leaders to join in discussions with EPA leadership and staff during the month of March. I'm organizing a roundtable featuring Women in the Outdoors for next Thursday, March 29th at our Washington, DC headquarters.

Janet McCabe, Deputy Assistant Administrator for the Office of Air and Radiation, will lead with a brief discussion regarding high-level policy decisions impacting the outdoors, such as EPA's Mercury and Air Toxics rule and wetlands preservation. Roundtable participants will exchange points of view and discuss what's important to them as a woman leader in the outdoors during the following moderated Q&A session.

Janet will need support to discuss wetland issues EPA is working on at a high-level with the outdoor leaders during the event.

Thanks again for your assistance in setting this up.

Travis & Scott -- He have a hold on our deputy office directors calendar on Mar 29 from 10 to 1 for this function. Are there any materials for this roundtable that we can get to her?

Scott

I have copied the Wetlands team in OWOW who can see about staffing both of those opportunities with key stakeholders.

Hey Travis!

Who is the key EPA person for a wetlands discussion with outdoor sportsmen? I need someone to support Janet McCabe during a stakeholder roundtable on Mar 29th. It's with women leaders in the outdoors, so perhaps someone female would be best.

Also, I have a group of sportsmen requesting a meeting with the Administrator on April 16 regarding Bristol Bay/Pebble Mine. They've met with Dennis McLerran and Bob S. several times and working with Wayne Nastri (former R9 RA). They seem to all be in

agreement that this should be brought to the Administrator's attention during their April sportsmen conference in DC. Will need a strong team of EPA wetlands folks involved as well.

Thank amigo,

Scott W. Fraser
